About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Insight High Income Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms), contained in the Insight High Income fund Reference Guide ("Reference Guide"), each of which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates to is only available to persons receiving this PDS in Australia (electronically or otherwise) All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Insight Investment Management (Global) Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Insight Investment Management (Global) Limited ("Investment Manager") is a private limited company incorporated under the laws of England and Wales. It manages and advises on the investment of managed funds and is a subsidiary of Insight Investment Management Limited ("Insight") which is part of The Bank of New York Mellon Corporation. Headquartered in London, Insight has operations in the UK, US, Australia, Germany and Japan. Insight has been operating since 2002 and its goal is to solve the real investment problems faced by a broad range of clients, from pension funds and insurers to sovereign wealth funds and individuals. Insight is responsible for A\$1,265bn in assets under management globally (as of 31 March 2024), of which A\$41,733 million is managed for Australian investors, across multi-asset and currency risk management. The Bank of New York Mellon Corporation is a global financial services company in its third century of business, has approximately US\$2 trillion (as at 31 December 2023) in assets under management and is a publicly listed company on the New York Stock Exchange (BK).

The Investment Manager is authorised and regulated by the Financial Conduct Authority in the UK under UK laws which are different from Australian laws. It is exempt from the requirement of the Corporations Act 2001 to hold an Australian Financial Services Licence in respect of its financial services. The Investment Manager may, from time to time, delegate the discretionary investment management and/or back office support functions in respect of the assets of the Fund.

2. How the Insight High Income Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$1,000,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

State Street Australia Limited
Unit Registry,
Level 14, 420 George Street,
Sydney, NSW, 2000

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.45%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

The Buy/Sell Spread will be reviewed on a quarterly basis and may change as a result of the investment strategy of the Fund. The Responsible Entity has the discretion to change the Buy/Sell Spread without providing notice. The most current Buy/Sell Spread can be found in the relevant monthly fund factsheet available at www.eqt.com.au/insto and can be viewed prior to making an investment or withdrawal.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$20,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income monthly effective as at the last Business Day of each month. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

State Street Australia Limited
Unit Registry,
Level 14, 420 George Street,
Sydney, NSW, 2000

Or sending it by fax to +612 9323 6420 or +612 9323 6411.

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD denominated Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.45%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$30,000 as a result of processing your withdrawal request. *Equity Trustees may limit the number of units redeemed on a Business Day on which banks are not open for general banking business in London and/or New York to units representing not more than 10% of the NAV of the Fund. This limitation will apply pro rata, so that all unitholders wishing to redeem units on that day realise the same proportion of their units. Redemption of units that would otherwise have been redeemed will be deferred to the next Business Day.* In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Insight High Income Fund

- Potential over the medium to long term to deliver monthly income in excess of 3% over the Australian Cash Rate (as defined in the glossary) or similar recognised rate, with the aim of capital appreciation over the medium to long term. Investors should note that neither income or capital appreciation is guaranteed and may not be achieved.
- It is a diversified and liquid bond portfolio.
- The Investment Manager takes a systematic and active approach to security selection which aims to take advantage of structural inefficiencies in the bond market to capture the potential upside arising from forced selling when bonds are downgraded to a high yield investment rating.
- It is managed by a stable and focused team of portfolio managers deploying a transparent and robust investment process.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Risk of not achieving objective

It should be noted that the Fund's investment objective is not guaranteed but rather depends on the Investment Manager's skill in selecting appropriate investments as described in section 5 below, as well as other factors outside of the Investment Manager's control.

Fund risk

The Fund could terminate, the fees and expenses could change, the Investment Manager or Responsible Entity could be replaced and the investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

General risks

The market price of investments may go up or down, sometimes rapidly and unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund.

Interest rate and inflation risk

Changes in official interest rates can directly and indirectly impact (negatively or positively) on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and sometimes this may affect the valuation of stocks and other assets. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise. The value of the Fund may be affected by substantial adverse movements in interest rates and inflation.

Liquidity risk

There may be times when securities may not be readily sold (for example an exchange-imposed limit on price fluctuations on a particular day in both falling and rising market conditions) and this may impact the investment and markets to which the Fund has exposure.

If there is an interruption to regular trading in a market generally, or for a particular investment to which the Fund has exposure, there may be delays in processing withdrawal requests. Neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments or of investments in the Fund.

Currency risk

Assets of the Fund may be denominated in a currency other than Australian Dollar (AUD) (the "Base Currency") and changes in the exchange rate between the Base Currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the Base Currency. It may not be possible or practical to hedge against such exchange rate risk.

The Net Asset Value of the Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the Base Currency and by changes in exchange rate controls.

The Fund may from time to time enter into currency exchange transactions either on a spot basis or by buying currency exchange forward contracts. Neither spot transactions nor forward currency exchange contracts eliminate fluctuations in the prices of the Fund's securities or in foreign exchange rates or prevent loss if the prices of these securities should decline. Performance of the Fund may be strongly influenced by movements in foreign exchange rates because currency positions held by the Fund may not correspond with the securities positions held. As a result, the Fund may suffer losses even if there is no loss of value of the underlying securities positions being held by the Fund.

The Fund may enter into currency exchange transactions and/or use techniques and instruments to seek to protect against fluctuation in the relative value of its portfolio positions as a result of changes in currency exchange rates or interest rates between the trade and settlement dates of specific securities transactions or anticipated securities transactions. Although these transactions are intended to minimise the risk of loss due to a decline in the value of hedged currency, they also limit any potential gain that might be realised should the value of the hedged currency increase. The precise matching of the relevant contract amounts, and the value of the securities involved will not generally be possible because the future value of such securities will change as a consequence of market movements in the value of such securities between the date when the relevant contract is entered into and the date when it matures. The successful execution of a hedging strategy which matches exactly the profile of the investments of the Fund cannot be assured. It may not be possible to hedge against generally anticipated exchange or interest rate fluctuations at a price sufficient to protect the assets from the anticipated decline in value of the portfolio positions as a result of such fluctuations.

Derivative risk

The Fund may make extensive use of both exchange-traded and over-the-counter derivatives, including, but not limited to, futures, forwards, swaps, options and contracts for differences, as part of its investment policy. Derivatives are highly specialised instruments that require investment techniques and risk analysis different from those associated with equities and debt securities. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into and the ability to assess the risk that a derivative transaction adds to a portfolio. As such there can be no guarantee or assurance that the use of derivatives will meet or assist in meeting the investment objectives of the Fund.

Derivatives can be highly volatile and expose investors to a high risk of loss. The low initial margin deposits normally required to establish a position in such instruments permit a high degree of leverage. As a result, depending on the type of instrument, a relatively small movement in the price of a contract may result in a profit or a loss which is high in proportion to the amount of funds actually placed as initial margin and may result in unquantifiable further loss exceeding any margin deposited. In addition, daily limits on price fluctuations and speculative position limits on exchanges may prevent prompt liquidation of positions resulting in potentially greater losses. Transactions in over-the-counter contracts may involve additional risk as there is no exchange market on which to close out an open position. It may be impossible to liquidate an existing position, to assess the value of a position or to assess the exposure to risk.

In relation to over-the-counter derivative contracts, the Fund will additionally be exposed to the risk that the counterparties to such contracts may, in an insolvency or similar event, be unable to meet their contractual obligations under the contracts. Although the operation of collateral arrangements will help mitigate this risk, if a counterparty was unable to meet its contractual obligations under a derivative contract, the Fund could still incur a loss and this would have an adverse effect on the value of the Fund.

Valuation risk

The Fund may be subject to valuation risk due to the manner and timing of valuations of the Fund's investments in underlying collective investment schemes. Underlying collective investment schemes may be valued by fund administrators affiliated to fund managers, or by the fund managers themselves, resulting in valuations which are not verified by an independent third party on a regular or timely basis. Accordingly there is a risk that the valuations of the underlying collective investment schemes may not reflect their true value at a specific time which could result in significant losses or inaccurate pricing for the Fund.

Those underlying collective investment schemes in which a Fund invests which are open-ended may have restrictions on the number of shares that can be redeemed on a dealing day and there may be occasions when redemptions are suspended. The Fund may accordingly not be able to achieve the prevailing underlying NAV when it wishes to realise an investment.

Exchange traded funds risk

The Fund may invest in exchange traded funds. Exchange traded funds represent a basket of securities that are traded on an exchange and may not necessarily trade at the NAV of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio. Exchange traded funds may not be backed by underlying physical positions and may be subject to counterparty risk.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

ESG data reliance risk

In evaluating a security or issuer based on ESG criteria, the Investment Manager is dependent upon information and data from third party ESG data providers, which may be incomplete, inaccurate, inconsistent, or unavailable. As a result, there is a risk that the Investment Manager may incorrectly assess a security or issuer. Neither the Fund, Investment Manager or any of their delegates accept liability for any loss caused to the Fund as a result of incomplete, inaccurate, inconsistent or unavailable information and/or data provided or not provided by third party providers. There is also a risk that the Investment Manager may not apply the relevant ESG criteria correctly or that the Fund may gain limited exposure to issuers which may not be consistent with the relevant ESG criteria used by the Fund. Neither the Fund, Investment Manager or any of their affiliates make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of such ESG assessment.

ESG ratings and investment restrictions which apply to the Fund may draw on multiple data sources. Investors should be aware that there may be a delay between each of (i) an event occurring which may have an impact on an ESG rating or investment restriction, (ii) the data in respect of such event being processed by various internal and third-party systems, and (iii) the determination of an ESG rating change by the Investment Manager and subsequent implementation thereof.

ESG relative performance risk

Where the Fund takes environmental, social or governance considerations into account when making investment decisions this may result in the Fund underperforming or performing differently relative to other comparable funds that do not promote such characteristics or pursue a sustainable investment objective.

High yield/sub-investment grade securities risks

Lower-rated securities will usually offer higher yields than higher-rated securities to compensate for the reduced creditworthiness and increased risk of default that these securities carry. Lower-rated securities generally tend to reflect short-term corporate and market developments to a greater extent than higher-rated securities which react primarily to fluctuations in the general level of interest rates. During an economic downturn or a sustained period of rising interest rates, highly leveraged issuers of high yield securities may experience financial stress and may not have sufficient revenues to meet their interest payment obligations. There are fewer investors in lower-rated securities, and it may be harder to buy and sell securities at an optimum time. Accordingly, such securities are generally subject to lower liquidity, higher volatility and greater risks of loss of principal and interest than high-rated debt securities.

Credit risk

There can be no assurance that issuers of the securities or other instruments in which the Fund invests will not be subject to credit difficulties leading to the loss of some or all of the sums invested in such securities or instruments or payments due on such securities or instruments. The Fund may also be exposed to a credit risk in relation to the counterparties with whom they transact or place margin or collateral in respect of transactions in FDI and may bear the risk of counterparty default.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to generate a return in excess of the Bloomberg Barclays US HY Fallen Angel 3% Cap Total Return Index Value hedged to the AUD (the "Benchmark") with similar levels of volatility over the medium to long-term before fees and expenses, whilst taking environmental, social and governance ("ESG") factors into account. For information on the ESG factors taken into account please see the 'Labour, environmental, social and ethical considerations' section of this PDS.

There can be no assurance that the Fund will achieve its investment objective. An investor may lose all of the amount invested.

Benchmark

The Benchmark measures the performance of the U.S. Fallen Angel debt market, with issuers currently capped at 3% each. The Benchmark is a market-weighted index which includes US dollar denominated fixed income debt securities issued by corporates that were previously rated as investment grade and were included in the Bloomberg Barclays US Corporate Total Return Value Unhedged Index, with inclusion criteria in accordance with guidelines set by the index provider.

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 5 years.

Risk level

Medium/high

The Fund aims to provide returns that are reflective of the underlying benchmark in which it invests. Historically, this benchmark has exhibited a negative annual return in 3 to 4 years out of 20 years and hence is classified as medium/high risk.

There is a risk that investors may lose some or all of their investment. Higher risk investments can fluctuate in value in the short term but may also produce higher returns than lower risk investments over the long term.

Investor suitability

The Fund is only suitable for medium-long term investors.

Portfolio

The Fund may invest in fixed rate corporate debt and debt-related securities, which may be issued as 144A or Reg S securities, including bonds and debentures ("Debt and Debt-Related Securities").

The Fund will invest the majority of its Net Asset Value in "Fallen Angels". Fallen Angels are defined as sub-investment grade Debt and Debt-Related Securities that were previously rated as investment grade by any rating agency such as Standard & Poor's, Moody's Investor Services, Fitch Ratings or equivalent recognised rating agency (each, a "Recognised Rating Agency") at time of purchase. Securities are classified as sub-investment grade if the median rating of these agencies is Ba1/BB+/BB+ or below. When a rating from only two agencies is available, the lower rating is used; when only one agency rates a security, that rating is used.

The Fund may also invest in financial derivative instruments ("FDI"), and up to 10% of its Net Asset Value in aggregate in open-ended collective investment schemes ("CIS") including money market funds and open-ended exchange traded funds ("ETFs"). The Fund may also invest in government debt and Debt-Related Securities.

Portfolio Construction

The Investment Manager will construct the portfolio based on the Benchmark. In the portfolio construction process, a selection of Debt and Debt-Related Securities will be chosen from the investment universe by the Investment Manager. The Investment Manager first seeks to overweight bonds which have been downgraded in the last 12 months, focusing first on those Debt and Debt-Related Securities most newly downgraded. The Investment Manager may then consider Debt and Debt-Related Securities downgraded within 24 months. The Investment Manager also looks to reduce exposure to newly Fallen Angels with rapidly deteriorating fundamentals, for example a bond that has gone from BBB to CCC or lower within 2 months. The Investment Manager will also generally reduce exposure to Debt and Debt-Related Securities that have been downgraded 24 months ago, as these Debt and Debt-Related Securities are deemed by the Investment Manager to present a less compelling risk/reward opportunity relative to the remaining investment universe.

The Investment Manager will examine the yield/spread, risk, sector and credit quality characteristics and choose Debt and Debt-Related Securities such that the aggregate metrics, risk, sector and quality of the Fund's holdings are in line with the Fund's objective, subject to security selection. The application of the Investment Manager's proprietary credit model informs its security selection process. This credit model scores and ranks the investable universe by gathering information from financial markets and corporate balance sheets to help identify the appropriate value that Debt and Debt-Related Securities are expected to trade at. In this way the model helps the Investment Manager to identify Debt and Debt-Related Securities which may underperform when compared to similar Debt and Debt-Related Securities. The Investment Manager will underweight these Debt and Debt-Related Securities relative to the Benchmark.

The Investment Manager will seek to hedge duration to the level of the Benchmark, so as to manage interest rate risk, and will cap issuer weight at 7%, and limit exposure to CCC rated securities to 10%. The Fund will seek to hedge currency risk back to the Australian Dollar through the use of derivatives. Notwithstanding the foregoing, there can be no guarantee that the hedging techniques will be successful and, while not intended, this activity could result in over-hedged or under-hedged positions due to external factors outside the control of the Fund.

The portfolio of assets will vary over time as the Investment Manager needs to adjust the Fund's holdings to meet the investment objective for the Fund.

Implementation

A systematic and disciplined approach is used to construct a portfolio based on the Benchmark which provides "efficient beta". 'Beta' refers to gaining market exposure while 'efficient' refers to achieving the 'beta' through the Investment Manager's considered and cost-effective investment decisions and strategies.

The Investment Manager will seek to lower implementation costs through multiple strategies. The team's credit portfolio trading approach may reduce costs by reducing the number of transactions when purchasing securities. In addition, relaxing rigid index rebalancing rules may lead to further cost savings. For example, the Investment Manager may hold Debt and Debt-Related Securities no longer included in the Benchmark where selling these would incur unnecessary trading costs.

Where the Fund invests in Debt and Debt-Related Securities it may only invest up to 5% of its Net Asset Value in aggregate in Debt and Debt-Related Securities not included in the Benchmark at the point of purchase. Furthermore, where the Fund invests in Debt and Debt-Related Securities not included in the Benchmark such Debt and Debt-Related Securities must be i) new issues from Benchmark constituent issuers or ii) rated BB- or higher.

The Fund may also invest in Debt and Debt-Related Securities not included in the Benchmark where the relevant security meets the requirements of, and is expected by the Investment Manager to be included in the Benchmark in the future. Such holdings will not be subject to the 5% limit above.

The Fund may continue to hold securities which were included in the Benchmark at the time of purchase even if they are subsequently removed from the Benchmark whether due to losing their rating or being upgraded to investment grade. Debt and Debt-Related Securities which have been downgraded to unrated or upgraded to investment grade are not expected to exceed 10% of the Fund's Net Asset Value

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

EQT has delegated the investment function (including ESG responsibilities) to the Investment Manager and the Investment Manager has contemplated that the following 'Labour, Environmental, Social and Ethical considerations will be taken into account when making investment decisions with respect to the Fund's investments in Debt and Debt-Related Securities.

1) The Investment Manager will not invest directly in the Debt and Debt-Related Securities of a corporate issuer who has (at the time of investment and in the opinion of the Investment Manager) material involvement in:

- Thermal coal mining
- Tar sands
- Coal power generation
- Tobacco production

In this context, the materiality threshold currently applied by the Investment Manager is generally based on percentage of revenue derived from the above source(s). Typically, the Investment Manager regards revenue of between 5% to 20% to be breaching materiality thresholds, depending on the individual source and screen. The Investment Manager reserves the right to change such thresholds and/or related considerations.

2) The Investment Manager will also not make direct investments in Debt and Debt-Related Securities issued by corporate issuers who, in the opinion of the Investment Manager, are involved in:

- Controversial weapons production; or
- severe environmental, social or governance controversies including significant violations of UN Global Compact Principles (in each case, as assessed by the Investment Manager).

3) The Investment Manager will also screen out corporate issuers from the Fund based on certain ESG controversy related scores and/or data provided by recognised third party provider(s) such as MSCI or other providers whose overall company assessment generally signals whether a company has a notable controversy related to such company's operations and/or products, and the severity of the social or environmental impact of the controversy.

Data sources and related methodologies set out in this paragraph are generally owned by third-party providers and may be incomplete, inaccurate, inconsistent, or unavailable. As a result, there is a risk that the Investment Manager may incorrectly assess a security or issuer in the context of the Fund.

Where the Fund, in the opinion of the Investment Manager, holds a position that has moved outside of restrictions 1), 2) or 3) above, subject to availability of relevant data, the Investment Manager shall make reasonable endeavours to remove the position within one month.

By combining the strategies detailed above, the Investment Manager seeks to deliver an efficient beta investment solution for investors which will provide a return in excess of the Benchmark over the medium to long-term.

The Investment Manager incorporates the above factors into its systematic security selection and portfolio construction process when selecting Debt and Debt-Related Securities. The results of the screening and portfolio construction process are monitored and reviewed on an ongoing basis, and the Investment Manager regularly reviews the impact of ESG factors on the investable universe.

Fund performance

For the latest information on the performance of the Fund please refer to the monthly fact sheet at www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how the relevant fees and costs are calculated.

² The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

³ The indirect costs component of management fees and costs and transaction costs is based on the relevant costs incurred during the financial year ended 30 June 2023 adjusted to reflect a 12 month period, and incorporates estimated amounts. Please see "Additional Explanation of Fees and Costs" below.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.525% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs component and other expenses component of management fees and costs is based on the relevant costs incurred during the financial year ended 30 June 2023 adjusted to reflect a 12 month period, and incorporates estimated amounts.

In relation to the costs that have been estimated, they have been estimated on the basis of annualised figures based on the actuals to 30 June 2023.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold and the costs of over-the-counter derivatives that reflect transaction costs that would arise if the Fund held the ultimate reference assets, as well as the costs of over-the-counter derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.45% upon entry and 0.45% upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000,000 is \$4,500 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and the managers or REs web site or fact sheet will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.03% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2023 adjusted to reflect a 12 month period, and incorporates estimated amounts.

In relation to the costs that have been estimated, they have been estimated on the basis of annualised figures based on the actuals to 30 June 2023.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 2 9260 6655 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Insight High Income Fund

BALANCE OF \$1,050,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.525% p.a.	And , for every \$1,050,000 you have in the Insight High Income Fund you will be charged or have deducted from your investment \$5,513 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.03% p.a.	And , you will be charged or have deducted from your investment \$315 in transaction costs
Equals Cost of Insight High Income Fund		If you had an investment of \$1,050,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$5,828* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$1,050,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

State Street Australia Limited
Unit Registry,
Level 14, 420 George Street,
Sydney, NSW, 2000

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

SECTION 5.1 – CUSTODIAN ATTESTATION: CHAPTER 4, PARTS 4.4.18 AND 4.4.19 OF THE AML/CTF RULES

If you are a Company completing this Application Form on behalf of an individual, another company, a trust or other entity, in a Custodial capacity, please complete this section.

In accordance with Chapter 4, part 4.4.19 (1)(a) to (d) of the AML/CTF Rules, does the Custodian meet the definition (see 'Section 10 – Glossary') of a Custodian?

No Yes

In accordance with Chapter 4, part 4.4.19 (e) of the AML/CTF Rules, do you, in your capacity as Custodian attest that prior to requesting this designated service from Equity Trustees, it has carried out and will continue to carry out, all applicable customer identification procedures on the underlying account holder named or to be named in the Fund's register, including conducting ongoing customer due diligence requirements in accordance with Chapter 15 of the AML/CTF Rules?

No Yes

If you answered YES to all of the above questions, then Equity Trustees is able to apply the Chapter 4, part 4.4 Custodian rules to this account and will rely upon the customer due diligence conducted by the Custodian on the underlying account holder named or to be named in the Fund's register.

If requested to do so at any time after the provision of this designated service, the Custodian agrees to honour any reasonable request made by Equity Trustees for information or evidence about the underlying account holder in order to allow Equity Trustees to meet its obligations under the AML/CTF Act.

No Yes

Excepting the below circumstances where the custodian answered NO or did not complete any of the above questions, no other information about the underlying account holder is required to be collected. However, further information about you as the Custodian and as a company is required to be collected and verified as required by the AML/CTF rules. Please complete the rest of this form for the Custodian.

Excepting circumstances:

If you answered NO or did not complete any of the above questions, then we are unable to apply the Chapter 4, part 4.4 Custodian rules to this application. We are therefore obligated to conduct full Know Your Client procedures on the underlying account holder named or to be named in the Fund's register including any named nominee, as well as the trustees, beneficial owners and controlling persons of the underlying named account in addition to the Custodian. Therefore, please complete the relevant forms and provide identity documents for all parties connected to this account.

SECTION 8 – DECLARATIONS – ALL INVESTORS MUST COMPLETE

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act (FATCA) and the Common Reporting Standard (CRS). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

When you complete this Application Form you make the following declarations:

- I/We have received the PDS/IM and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS/IM to which this Application Form applies and agree to be bound by the terms and conditions of the PDS/IM and the Constitution of the relevant Fund/Trust in which I/we have chosen to invest.
- I/we have carefully considered the features of Fund/Trust as described in the PDS (including its investment objectives, minimum suggested investment timeframe, risk level, withdrawal arrangements and investor suitability) and, after obtaining any financial and/or tax advice that I/we deemed appropriate, am/are satisfied that my/our proposed investment in the Fund/Trust is consistent with my/our investment objectives, financial circumstances and needs.*
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS/IM.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund/Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees has outlined in the PDS/IM provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS/IM information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Fund/Trust or any particular rate of return from the Fund/Trust.
- I/We acknowledge that an investment in the Fund/Trust is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or financial advisers.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
 - I/we are ineligible to hold units in a Fund/Trust or have provided misleading information in my/our Application Form; or
 - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund/Trust.
- **For Wholesale Clients*** – I/We acknowledge that I am/we are a Wholesale Client (as defined in Section 761G of the Corporations Act 2001 (Cth)) and are therefore eligible to hold units in the Fund/Trust.
- **For New Zealand applicants*** – I/we have read the terms of the offer relating to New Zealand investors, including the New Zealand warning statement.
- **For New Zealand Wholesale Investors*** – I/We acknowledge and agree that:
 - I/We have read the “New Zealand Wholesale Investor Fact Sheet” and PDS/IM or “New Zealand Investors: Selling Restriction” for the Fund/Trust;
 - I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
 - I/We have not:

- Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;
 - Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and
 - Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
 - I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.

All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

* Disregard if not applicable.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
