3. About the Fund Investments

Structure

Australian wholesale unit trust.

Portfolio

The Fund will invest primarily in the Master Fund (Atlantic House Uncorrelated Strategies Fund) which is a [Ireland domiciled UCITS product].

Investment Universe

The Fund will invest in the Master Fund and hold cash for working capital. The Master Fund directly invests into total return swaps with exposure to financial indices. The Master Fund may invest in certain assets to provide collateral for its swap exposure. These assets will primarily be investment grade fixed income securities and money market instruments.

Objective of the Fund

The Fund aims to deliver returns across a wide range of market conditions while protecting the portfolio from significant market downturns.

Why invest in the Fund?

Information

At the date of this IM the Fund is almost wholly invested in the Master Fund. The Master Fund is managed by Atlantic House and its affiliates and has a substantially similar investment objective to the Fund. The Master Fund is an open-ended investment company incorporated in Dublin Ireland and has been certified as complying with the conditions necessary to enjoy the rights conferred by the Undertakings for Collective Investment in Transferable Securities ("UCITS") Directive or European CIV laws, which includes a right for the Master Fund to be freely marketed to investors across the European Union.

Investing in the Fund provides clients with the following significant features and benefits:

- Access to Atlantic House's investment and advisory expertise.
- Atlantic House has a proven track record in managing portfolios using a systematic approach based on analytical modelling.
- Exposure to the Master Fund with actively managed:

- long volatility strategies aiming to profit from rising implied or realised volatility and may act as a hedge against extreme market moves.
- Diversified strategies aiming to generate positive returns in normal market conditions, regardless of market direction.

Portfolio Construction

The Master Funds Investment Manager expects between 90% and 100% of the portfolio will be invested through total return swaps that provide exposure to financial indices. The remaining 0% to 10% may be invested through other FDIs (financial derivative instruments). The Master Fund's investments in FDIs will take exposure to a 'basket' of various underlying assets/constituents, being equity, equity-related securities (e.g. convertible securities (such as preference shares) and share purchase rights), financial indices (e.g. S&P 500, EuroStoxx 50, VIX), debt securities, collective investment schemes (including exchange traded funds), commodities, currencies, futures, forwards and/or options.

Specialised Investments Area

The Master Fund may need to invest a significant amount of its total assets in instruments to function as collateral for the use of FDIs. Such instruments will be primarily investment grade (fixed and floating rate) debt securities issued by governments, government agencies and corporate entities and money market instruments.

Investment Parameters of the Fund

Portfolio Parameters

The Fund will generally invest solely in the Master Fund, the Atlantic House Uncorrelated Strategies Fund, and cash for working capital purposes. The Master Fund employs an actively managed approach without reference to a benchmark and is not subject to any industry sector or size constraints on target investments. Each underlying investment of the Master Fund is chosen on its contribution to two separate strategies. The first is a long volatility strategy that aims to profit from rising volatility. The second is a diversifier strategy that aims to be profitable in normal market conditions, irrespective of the direction of the market. Investments by the Master Fund are initially allocated risk weights that are rebalanced on a regular basis (typically monthly).

4. Principal risks

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. You should consider the significant risks below when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

General investment risks

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund, and your investment in them.

Concentration risk

The concentrated nature of the investments of the Fund will reduce the potential benefit of diversification. The potential benefit of diversification is to reduce volatility of investments. As the Fund has a concentrated portfolio of investments it may experience higher volatility than a more diversified portfolio.

Currency risk

The Fund will invest in Australian denominated units of the Master Fund. This share class will incorporate a FX hedging mechanism which aims to mitigate most of any FX risk between the base currency of the Fund (USD) and this share class (AUD). Whilst the hedging mechanism should mitigate most of this risk some residual risk is likely to remain which may effect the performance of this share class either positively or negatively.

Liquidity risk

There may be times when there may be a limited secondary market for the securities in which the Fund has exposure through its investment in the Master Fund, and that may affect the ability of the Fund to realise investments or to meet

withdrawal requests (for example, in a falling market where companies may become less liquid or if there was a freeze on withdrawals from an underlying fund in which the Fund invests).

Withdrawals may be subject to an anti-dilution levy in the Master Fund. The Fund also has a similar mechanism which reflects the anti-dilution levy in the Master Fund.

Fund risks

Risks particular to the Fund include that it could terminate, the fees and expenses could change, the Investment Manager or Trustee could be replaced, and the investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Derivatives risk

The Master Fund is entitled to use derivative instruments for investment purposes and for efficient portfolio management and/ or to protect against exchange risks. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Master Fund. The derivatives used by the Master Fund may include futures or forward currency contracts. Where such contracts are used, the Master Fund may become exposed to certain investment risks including leverage, market, mismatching of exposure and/or counterparty risk, liquidity, interest rate, credit and management risks and the risk of improper valuation. While the Master Fund is not expected to have exposure to leverage to a material degree, any movement in the price of these investments can have a significant impact on the value of the Master Fund and the Master Fund could lose more than the amount invested.

Issuer/Credit risk

The Master Fund invests in government and corporate bonds. All bonds will be rated at least BBB- by Standard and Poors at outset. If any of the bonds the Fund owns suffer credit events the performance of the Fund could be adversely affected.

Other risks

Other risks the Fund is exposed to include but are not limited to: possible changes in interest rates, changing expectations of future market volatility, changing expectations of equity market correlation and changing dividend expectations.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. Investing in the Fund

Authorised Investments

The Fund can only invest in assets permitted by the Constitution.

Valuations

The assets of the Fund will be determined primarily by the net asset value of the Master Fund, plus any adjustment for assets or liabilities of the Fund which are not referable to its investment in the Master Fund.

As a result, delays in processing your application may occur.

Equity Trustees reserves the right to refuse any application without giving a reason. You will not be entitled to any interest on your application money in this circumstance.

Withdrawals

If we receive a withdrawal request:

- before 2 pm (Sydney time) on a Business Day and your withdrawal request is accepted, you will generally receive the Withdrawal Price calculated for that Business Day; or
- on or after 2 pm (Sydney time) on a Business Day and your withdrawal request is accepted, you will generally receive the Withdrawal Price calculated for the next Business Day.

The minimum withdrawal is \$25,000, which may in certain circumstances be waived by the Trustee (or the total of a Unitholder's entire holding, if less). Equity Trustees is unable to accede to a withdrawal request if the Fund is not liquid however, it will make reasonable endeavours to pay the withdrawal as soon as is reasonably practicable without materially adversely impacting remaining Unitholders.

Equity Trustees will generally allow an investor to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, the Constitution allows Equity Trustees to reject withdrawal requests and to delay withdrawals or calculation of the Withdrawal Price, in certain circumstances. The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this IM, the Sell Spread is Nil. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below an amount determined by the Trustee as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

Income Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly. Distributions are calculated on the last day of the period and are normally paid to investors within three months.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their nominated Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, an investor's withdrawal proceeds may be taken to include a component of distributable income.

Reporting

Unitholders will receive the NAV of the Fund on a weekly basis, monthly performance reviews and yearly audited reports.

Rights and Liabilities of Unitholders

Rights of the Unitholders are governed by the Constitution and the Corporations Act. The Constitution provides that the liability of Unitholders is limited to the assets of the Fund.

6. Fees and other costs

Management costs

Management costs include management fees and other ordinary expense recoveries related to the establishment and operation of the Fund. Management costs do not include performance fees or transaction costs and abnormal expenses, which may also be charged to the Fund.

The management costs include trustee fees, investment management fees administration fees and bank fees. The management fees are 1.32% p.a. (including GST and net of RITC) of the NAV of the Fund and are reflected in the unit price of the Fund.

The management fee includes the Master Funds management fee of 0.75% p.a. and other costs which are estimated at 0.07% p.a.. The Fund does not charge a performance fee however the units in the Master Fund in which the Fund invests, being the AUD Class I (Hedged) Distribution Shares, incur a performance fee of 20% where the investment performance of the Master Fund, after management fees and costs, exceeds the performance of the units benchmark, the Reserve Bank of Australia cash rate target +4% and any previous high water mark.

All other ordinary expenses related to the establishment and operation of the Fund, including custody fees and auditing and tax fees, are separately recovered from the Fund.

Further information regarding fees and other costs

What do the management costs pay for?

The management fees include trustee fees, investment management fees, administration fees and bank fees. The management fees are calculated and accrued daily based on the NAV of the Fund. The accrued fees are paid in arrears from the assets of the Fund within 14 days of the end of each month. The management fees reduce the NAV of the Fund and are reflected in the unit price.

All other ordinary expenses related to the establishment and operation of the Fund, including custody fees and auditing and tax fees, are separately recovered from the Fund outside of the management fees.

Differential fees

From time to time the Investment Manager may negotiate fees that differ from those above. This will generally relate to the size of your investment in the Fund. Please contact +61 400 560 240 if you wish to discuss the fees that may apply to your investment.

Transaction and other costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

All government taxes such as stamp duty and GST will be deducted from the Fund as appropriate. RITCs will also be claimed by the Fund where appropriate to reduce the cost of GST to the Fund.

Buy/Sell Spread

There is no Buy/Sell Spread. It should be noted that an anti-dilution levy of up to 2.00% may be deducted from redemption proceeds from the Master Fund if net withdrawals from the Master Fund are more than 5% of the net asset value of the Master Fund on a particular dealing day, in which case a corresponding sell spread may be charged of up to 2.00% for redemption from the Fund that relates to the affected redemption from the Master Fund

Abnormal expenses

In addition to the management fees and ordinary expense recoveries, the Trustee may additionally recover abnormal expenses (such as the costs of Unitholders' meetings, legal advice/proceedings and other irregular expenses). The Constitution does not place any limit on the amount of the abnormal expenses that can be paid from the Fund.

Can the fees change?

All fees can change without Unitholder consent, subject to the maximum fee amounts specified in the Constitution of the Fund. Reasons might include changing economic conditions and changes in regulations. Equity Trustees have the right to recover all proper expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will notify Unitholders of any changes to fees and expenses in accordance with the law and the Constitution. The Constitution in some circumstances defines the maximum fees that can be charged for some fees described in this IM.

7. Other Important Information

Cooling off period

No cooling off period applies to units offered under this IM.

Unitholder's liability

The Constitution for the Fund provides that unless there is a separate agreement with a Unitholder, no Unitholder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. Therefore, it is expected that Unitholders will not be under any obligation if a deficiency in the assets of the Fund was to occur. However, this view has not been fully tested and so it is not possible to give an absolute assurance that a Unitholder's liability will be limited in all circumstances.

In general, the liability of a Unitholder is limited to the amount (if any) which remains unpaid in relation to their subscription for units and certain amounts in respect of tax. The Trustee is permitted to deduct certain amounts owed to the Trustee from amounts payable to Unitholders.

Non-listing of units

The units of the Fund are not listed on any stock exchange and no application will be made to list the units of the Fund on any stock exchange.

Termination of the Fund

The Trustee may resolve at any time to terminate, liquidate and wind up the Fund in accordance with the Fund's Constitution. The Fund may otherwise terminate if required by law. A notice will be provided to Unitholders advising of the Fund's termination. Upon termination and after conversion of Fund assets into cash and payment of, or provision for, all costs and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata amongst all Unitholders according to the number of units they hold in the Fund.

Compliance Plan

Equity Trustees has prepared and lodged a compliance plan for the Fund with ASIC. The compliance plan describes the procedures used by Equity Trustees to comply with the Corporations Act and the Constitution of the Fund. Each year the compliance plan for the Fund is audited and the audit report is lodged with ASIC.

Unit Pricing Discretions Policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy (such as records of any discretions which are outside the scope of, or inconsistent with, the unit pricing policy) will be made available to investors free of charge on request.

Joint Account Operation

For joint accounts, unless indicated to the contrary on the Application Form, each signatory must sign withdrawal requests. Please ensure all signatories sign the declaration in the Application Form. Joint accounts will be held as joint tenants unless we are advised to the contrary in writing.

If an investor instructs Equity Trustees by electronic means, such as facsimile, email or via the internet the investor releases Equity Trustees from and indemnifies Equity Trustees against, all losses and liabilities arising from any payment or action Equity Trustees makes based on any instruction (even if not genuine):

- that Equity Trustees receives by an electronic communication bearing the investor's investor code; and
- which appears to indicate to Equity Trustees that the communication has been provided by the investor (for example, it has a signature which is apparently the investor's or an authorised signatory's or it has an email address which is apparently the investor's).

The investor agrees that neither the investor nor anyone claiming through the investor has any claim against Equity Trustees or the Fund in relation to such payments or actions.

There is a risk that a fraudulent withdrawal request can be made by someone who has access to an investor's investor code and a copy of their signature or email address. Please take care.

Constitution of the Fund

You will be issued units in the Fund when you invest. Each unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities, but does not give you an interest in any particular property of the Fund.

Equity Trustees' responsibilities and obligations, as the trustee of the Fund, are governed by the Constitution as well as the Corporations Act and general trust law. The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the trustee of the Fund, and investors. Some of the provisions of the Constitution are discussed elsewhere in this IM.

Other provisions relate to an investor's rights under the Constitution, and include:

- an investor's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor's right to withdraw from the Fund - subject to the times when we can cease processing withdrawals, such as if the Fund becomes 'illiquid';
- the nature of the units - identical rights attach to all units; and
- an investor's rights to attend and vote at meetings – these provisions are mainly contained in the Corporations Act.

There are also provisions governing our powers and duties, including:

- how we calculate unit prices, the maximum amount of fees we can charge and expenses we can recover;
- when we can amend the Constitution - generally we can only amend the Constitution where we reasonably believe that the changes will not adversely affect investors' rights. Otherwise the Constitution can only be amended if approved at a meeting of investors;
- when we can retire as the Trustee of the Fund;
- when we can be removed as the Trustee of the Fund - which is when required by law; and
- our broad powers to invest, borrow and generally manage the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets.

For example:

- subject to the Corporations Act we are not liable for acting in reliance and good faith on professional advice;
- subject to the Corporations Act we are not liable for any loss unless we fail to act in good faith or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees' responsibilities and obligations as the Trustee of the Fund are governed by the Constitution of the Fund, the Corporations Act and general trust law, which require that we:

- act in the best interests of investors and, if there is a conflict between investors' interests and our own, give priority to investors;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly;
- ensure payments from the Fund's property are made in accordance with the Constitution and the Corporations Act; and
- report to ASIC any breach of the Corporations Act in relation to the Fund which has had, or is likely to have, a materially adverse effect on investors' interests.

Copies of the Constitution are available, free of charge, on request from Equity Trustees.

Indemnity

Equity Trustees, as the Trustee of the Fund, is indemnified out of the Fund against all liabilities incurred by it in properly performing or exercising any of its powers or duties in relation to the Fund. a delegate or agent appointed by the Trustee. Equity Trustees may retain and pay out any monies in its hands all sums necessary to affect such an indemnity.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to a Unitholder in the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the Unitholder to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate Unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about investors (including beneficial owner information) in the Fund.

To meet this legal requirement, we need to collect certain identification information (including beneficial owner information) and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or investors do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing investors until such time as the information is provided.

In order to comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant

regulators of AML/CTF Laws (whether inside or outside Australia). Equity Trustees may be prohibited by law from informing applicants or investors that such reporting has occurred.

Equity Trustees shall not be liable to applicants or investors for any loss you may suffer because of compliance with the AML/CTF laws.
